📁 SOFTWARE DEVELOPER

Proactive Software Developer with nearly 3 years of experience, focused on delivering scalable, secure, and highly configurable applications end-to-end. A dedicated learner who takes full ownership of the software development lifecycle from in-depth requirement analysis to thorough testing, proactive monitoring, and reliable log management. Skilled at transforming complex client requirements into clear, effective technical solutions that create lasting business value.

🧠 SKILLS

- **Backend & Databases** – Node.js, Express.js, MS-Sql, MongoDB
- **Frontend** – Javascript, React.js, Redux, Material UI, Ant Design, HTML, CSS
- **Cloud** – AWS
- **Secondary** – Python, Machine Learning, Artificial Intelligence

📜 CERTIFICATIONS

- **MERN STACK Internship certification** – ScaleFull Technologies LLP
- **Python Internship certifications** – PIE INFOCOMM PRIVATE LIMITED
- **SDLC Agile certification** – Cognizant Technology Solutions Corporation
- **Generative AI and LLMs Certification** – Udemy

📁 PROJECTS

- Referral and Loyalty Web Application**
- Engineered a full-stack customer service application to manage client referral and loyalty programs for a major real estate project, utilizing React.js, Material UI, Node.js, Express.js, and MS-SQL.
 - Drove continuous client engagement by supporting a user base of 3,000+ customers, enabling them to accurately track and seamlessly claim transaction rewards through integration with the AppPayout gateway.
- E-Collection System**
- Developed a secure backend system consuming status check APIs from renowned banking partners, including Standard Chartered Bank (SCB), State Bank of Mauritius (SBM), ICICI, HDFC, and RBL, to automate payment verification, processing, and reconciliation.
 - Orchestrated the daily automated creation of 600 virtual accounts for 300 applications, successfully processing an average weekly transaction volume of ₹5 Crores.
- E-NACH System**
- Engineered an automated E-NACH platform integrating ICICI APIs to manage end-to-end mandate registration, verification, transaction scheduling, and real-time status tracking.
 - Streamlined monthly collections by automating scheduled customer debits and implementing dynamic splitting for GST and base collection amounts, successfully processing and settling an average of ₹60 Lakhs per month.
- Large Language Model (LLM) Application**
- Built an AIML-based application leveraging Python and vector database technology featuring RAG(Retrieval-Augmented Generation) implementation with integrated open-source LLMs like OLLAMA.

🏢 EXPERIENCE

- Software Developer**
Paya Tech Systems Pvt. Ltd
09/2025 - Present
- Engineered a highly scalable carnival app ranked top-10 on Zomato's "District," seamlessly processing 1,500+ registrations with zero downtime.
- Jr. Software Developer**
Sunorbit Consulting
04/2024 - 09/2025
- Co-developed a React/Node.js real estate loyalty platform and integrated secure banking APIs (ICICI, HDFC, SBM) for high-volume automated transactions.Co-developed a React/Node.js real estate loyalty platform and integrated secure banking APIs (ICICI, HDFC, SBM) for high-volume automated transactions.
- Software Developer Intern**
Scalefull Technologies LLP
07/2023 - 12/2023
- Delivered a dynamic MERN-stack admin panel to streamline property data management for an international real estate client.
- Software Developer Intern**
PieInfocomm Pvt. Ltd
10/2022 - 12/2022
- Developed a Python-based machine learning model for accurate image segmentation and component classification.

🏆 ACHIEVEMENTS

- Quality Award 2024 (Silver)**
Recognized for outstanding performance as a quality worker, consistently delivering highly reliable, scalable code and improving overall system stability.
- Annual Awards 2025 (Gold) – Quality and Safety**
Awarded for implementing critical safety measures and rigorous quality standards on high-impact financial projects that successfully process significant daily transaction volumes.
- Shabaaski Winner 2024 – Outstanding Performer**
Acknowledged for taking proactive ownership of the software development lifecycle, from requirement analysis to seamless execution.

🎓 EDUCATION

- B.E. Computer Science Engineering**
2019 - 2023
CGPA : 8.37
- HSC Maharashtra State Board of Secondary and Higher Secondary Education**
2017 - 2018
81.23 %

ACTIVITIES & HONORS

Core Committee Member & ERC

Wardha Youth Fest 2024

Founder Vice President

Basements Social Forum (Wardha)
